Notes to the Condensed Interim Consolidated Financial Statements
For the Three Months Ended March 31, 2021
(Expressed in United States Dollars, unless otherwise indicated) (Unaudited)

1. Nature of Operations

Nickel 28 Capital Corp. (the "Company" or "Nickel 28") was incorporated pursuant to the *Business Corporations Act* (British Columbia) on June 25, 2019 as "Nickel 28 Capital Corp." and changed its name to "Conic Metals Corp." on October 21, 2019 and "Nickel 28 Capital Corp." on March 10, 2021. The head office is located at 4 King Street West, Suite 401, Toronto, Ontario, Canada. The registered office of the Company is 666 Burrard Street, Suite 1700, Vancouver, British Columbia, Canada.

The Company is a base metals company offering direct exposure to nickel and cobalt. Nickel 28 holds an 8.56% joint-venture interest in the producing, long-life Ramu Nickel-Cobalt Operation located in Papua New Guinea. In addition, Nickel 28 manages a portfolio of nickel and cobalt royalties on development and exploration projects in Canada, Australia and Papua New Guinea.

These condensed interim consolidated financial statements of the Company for the three months ended March 31, 2021 were approved and authorized for issue by the Board of Directors on May 28, 2021.

On October 25, 2019, Cobalt 27 Capital Corp. ("Cobalt 27") and a wholly owned subsidiary of Pala Investments Limited ("Pala") - Sienna Metals Limited ("Sienna Metals") completed a transaction (the "Arrangement Agreement") pursuant to which Pala acquired 100% of Cobalt 27's issued and outstanding common shares, other than the approximately 19% that Pala already owned. Under the terms of the Arrangement Agreement Cobalt 27 shareholders received for each common share held, CAD\$4.00 in cash plus one common share of Nickel 28.

The Arrangement Agreement was carried out under a court approved statutory plan of arrangement governed by the Business Corporations Act (British Columbia). On closing of the Arrangement Agreement, certain assets and liabilities of Cobalt 27 were transferred to Nickel 28.

Commencing in March 2020, the outbreak of the novel strain of coronavirus known as "Covid19" has resulted in governments worldwide enacting emergency measures to combat the spread of the virus. These measures, which include the implementation of travel bans, self-imposed quarantine periods and social distancing, have caused material disruption to businesses globally resulting in an economic slowdown. Global equity markets have experienced significant volatility and weakness. Governments and central banks have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions. The Company's employees, directors and consultants have fortunately not had any known cases of Covid19. In addition, at the Company's joint-venture Ramu mine, MCC Ramu NiCo Limited has implemented several measures to limit the potential spread of Covid19. The duration and impact of the Covid19 pandemic is unknown at this time, as is the efficacy of the government and central bank interventions. It is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition of the Company and its operating subsidiaries in future periods.

2. Significant Accounting Policies

Statement of compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the IFRS Interpretations Committee ("IFRIC"). These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard ("IAS") 34 - Interim Financial Reporting. Accordingly, they do not include all the information required for full annual financial statements and should be read in conjunction with the Company's most recent annual consolidated financial statements as at and for the year ended December 31, 2020.

The same accounting policies and methods of computation are followed in these condensed interim consolidated financial statements as compared with the most recent annual consolidated financial statements as at and for the year ended December 31, 2020.

3. Key Sources of Estimation Uncertainty and Critical Accounting Judgments

The preparation of the Company's financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

In particular, the areas which require management to make significant judgments, estimates and assumptions in determining carrying amounts are:

Carrying amount of the Ramu Nickel Mine

The Company, on each reporting date, considers whether there is any objective evidence that its net investment in the Ramu Nickel Mine has suffered any impairment as a result of one or more events that have occurred after initial recognition of the net investment and have an impact on the estimated cash flows of the investment that can be reliably estimated. The assessment requires estimates and assumptions such as discount rates, exchange rates, commodity prices, operating costs, capital costs and production rates.

Non-recourse debt

The Company, on each reporting date, reclassifies a portion of its non-recourse debt as current. As the Company's non-recourse debt is to be repaid by Ramu Nickel Limited out of its share of operating surpluses, less ongoing capital expenditure requirements, the amount classified as current represents the expected operating surplus less interest that is expected to be applied to repay the non-recourse debt over the next twelve months. Actual results may vary.

Deferred taxes

The Company recognizes the deferred tax benefit related to tax assets and tax losses to the extent recovery is probable. Assessing the recoverability of deferred income tax assets requires management to make significant estimates of future taxable profit and expected timing of reversals of existing temporary differences. In addition, future changes in tax laws could limit the ability of the Company to obtain tax deductions in future periods from tax assets and tax losses.

Business combinations

Determination of whether a set of assets acquired and liabilities assumed constitute the acquisition of a business or an asset may require the Company to make certain judgments as to whether or not the assets acquired and liabilities assumed constitute a business as defined in IFRS 3. Based on an assessment of the relevant facts and circumstances, the Company concluded that the spin-out transaction on October 25, 2019 did not meet the definition of a business and the transaction has been accounted for as an asset acquisition.

Impairment of royalty contracts

Assessment of the royalty contracts for indicators of impairment at the end of each reporting period requires the use of judgments, assumptions and estimates when assessing whether there are any indicators that give rise to the requirement to conduct a formal impairment test on the Company's royalty contracts. Indicators which could trigger an impairment test include, but are not limited to, a significant change in operator reserve and resource estimates, industry or economic trends, current or forecast commodity prices, and other relevant operator information with respect to the underlying mineral resource properties.

	\$ 210,117	\$ 15,600,663

⁽¹⁾ Other receivables represent amounts to be applied against the non-recourse debt to MCC Ramu NiCo Limited. On January 1, 2021, the Company repaid \$15,415,419 of the non-recourse debt.

6. Marketable Securities

The Company holds 1,000,000 common shares of Minerva Intelligence Inc. ("Minerva"), which were acquired at a cost of \$76,581. As at March 31, 2021, the investment in Minerva was valued at \$202,783 (December 31, 2020 - \$141,376) based on the applicable closing share price.

7. Investment in Ramu Nickel Mine

The investment in the Ramu Nickel Mine ("Ramu") consists of an 8.56% joint venture interest in the producing Ramu mine and refinery located near the city of Madang on the north coast of Papua New Guinea. Ramu was financed, constructed and commissioned in 2012, by majority-owner and operator Metallurgical Corporation of China Limited ("MCC").

The 8.56% interest in the Ramu mine is held by the Company through its wholly-owned subsidiary Ramu Nickel Limited. The Company's interest in the Ramu mine will increase to 11.3% at no cost to the Company once Nickel 28's share of the Ramu project debt is repaid to the project manager and joint venture partner MCC (note 9). In addition to this, when the Company's interest increases to 11.3%, the Company will also have the option to purchase an additional 9.25% interest in the Ramu mine at market value, which if exercised, would take the Company's interest to 20.55%.

8. Royalty Contracts

A royalty is a payment to a royalty holder by a property owner or an operator of a property and is typically based on a percentage of the minerals or other products produced or the profits or revenue generated from the property. Royalties are not working interests in a property. Therefore, the royalty holder is generally neither responsible for, nor has an obligation to, contribute additional funds for any purpose, including, but not limited to, operating or capital costs, or environmental or reclamation liabilities. Typically, royalty interests are established through a contract between the royalty holder and the property owner. Many jurisdictions permit the holder to also register or otherwise record evidence of a royalty interest in applicable mineral title or land registries.

Common forms of royalties are Net Smelter Return (“NSR”) and Gross Revenue Royalty (“GRR”). NSR is based on the proceeds paid by a smelter or refinery to the miner for the mining production from the property less certain transportation, smelting and refining costs as defined in a royalty agreement. This type of royalty provides cash flow that is free of any operating or capital costs and environmental liabilities. GRR is generally based on the value of the mining production from the property before subsequent treatment charges are incurred. This type of royalty provides cash flow that is free of any treatment charges, operating or capital costs and environmental liabilities.

As of March 31, 2021 and December 31, 2020, the Company's Royalty Contracts consisted of the following:

Royalty Name	Owner	Property Location	Stage	Primary Metal(s), Royalty Type and %	March 31, 2021 Carrying value	December 31, 2020 Carrying value

8. Royalty Contracts (Continued)

- (1) The Dumont Nickel-Cobalt Royalty is a life-of-mine 1.75% NSR royalty.
(2) The Turnagain Royalty is a 2.0% NSR royalty on all future metal production from the Turnagain Nickel-Cobalt Project. Under the terms of the royalty agreement, Giga Metals Corporation has a onetime repurchase option to repurchase 0.5% of the 2.0% royalty (resulting in a 1.5% remaining royalty) by paying the Company \$20 million in cash on the fifth (5th) anniversary.
(3) The Flemington Royalty is a life-of-mine 1.5% GRR.
(4) The Nyngan Royalty is a life-of-mine 1.7% GRR.
(5) Two separate mineral properties to which a Co NSR applies.
(6) During the year ended December 31, 2020, the Company became aware that the holders of these royalties were no longer conducting exploration and accordingly recorded an impairment of \$571,081 against the royalties on the Professor & Waldman, Triangle and Rusty Lake properties.

9. Non-Recourse Debt

	As at March 31, 2021	As at December 31, 2020
Loan from MCC Ramu NiCo Limited - current	\$ 16,692,000	\$ 15,415,419
Loan from MCC Ramu NiCo Limited - non-current	76,107,775	91,638,008
	\$ 92,799,775	\$ 107,053,427

Balance consists of:

	As at March 31, 2021	As at December 31, 2020
Non-recourse operating debt - current	\$ 10,094,565	\$ 15,415,419
Non-recourse construction debt - current	6,597,435	-
Non-recourse operating debt - non-current	-	9,968,481
Non-recourse construction debt - non-current	76,107,775	81,669,527
	\$ 92,799,775	\$ 107,053,427

Non-recourse debt relates to the Company's interest, held in the wholly owned subsidiary Ramu Nickel Limited, in the Ramu Nickel mine and owing to MCC Ramu NiCo Limited. As part of the Joint Venture Agreement with MCC Ramu NiCo Limited, MCC Ramu NiCo Limited was responsible for development and financing of the mine. These borrowings represent the Company's 8.56% share of principal repayments (capped to a specified development threshold of \$2.1 billion) and interest repayments made by MCC Ramu NiCo Limited to third party lenders on behalf of the Company, plus any accumulated interest charged by MCC Ramu NiCo Limited. The borrowings are to be repaid out of the Company's share of the Ramu Nickel mine's operating surpluses (sales revenue less operating costs and ongoing capital expenditure requirements).

Currently, 100% of the operating surpluses from the mine are first allocated to repay the non-recourse operating debt and related interest. Once the operating debt is repaid, the Company will receive 35% of its share of the mine's operating surpluses, with the remaining 65% used to repay the non-recourse construction debt and related interest. Furthermore, once the Company's non-recourse construction debt is repaid, which can be repaid at anytime in its entirety without penalty, the Company's participatory share of the Ramu Nickel Mine will automatically increase from 8.56% to 11.3% and the Company will begin receiving 100% of its share of the mine's operating surpluses on a monthly basis.

9. Non-Recourse Debt (Continued)

The amount classified as current represents the expected operating surplus less interest that is expected to be applied to repay the non-recourse debt over the next twelve months. The borrowings, under the operating debt and construction debt, bear an interest rate of 5.05% annually.

During the three months ended March 31, 2021, the Company made a non-recourse debt repayment of \$15,415,529 from the Ramu Mine's operating surpluses.

10. Share Capital

- a) Authorized: Unlimited number of common shares without par value.
- b) Common shares issued:
 - (i) During the three months ended March 31, 2021, 800,000 RSUs with a fair value of \$411,840 were converted into common shares.

11. Stock Options, Restricted Share Units and Share Awards

- (a) Stock options

On December 16, 2019, the Company adopted a Stock Option Plan, subject to TSX-V and disinterested shareholder approval of the Company's Omnibus Long-term Incentive Plan ("LTIP"). The Company's Omnibus LTIP was approved at the Company's annual general meeting on June 19, 2020. The maximum aggregate number of shares reserved for issuance under the Company's Stock Option Plan, together with the RSU Plan (defined below), shall not exceed a combined total of 10% of the Company's issued and outstanding shares to officers, employees, directors, advisors and consultants. The exercise price is determined by the Board of Directors provided the minimum exercise price is set at the Company's closing share price on the day before the grant date. The options can be granted for a maximum term of ten years and vesting terms are determined by the Board of Directors at the date of grant.

The following table reflects the continuity of stock options for the periods ended March 31, 2021 and 2020:

	Number of stock options	Weighted average exercise price (CAD\$)
Balance, December 31, 2019 and March 31, 2020	-	-
Balance, December 31, 2020 and March 31, 2021	4,190,000	0.43

The following table reflects the Company's stock options outstanding and exercisable as at March 31, 2021:

11. Stock Options, Restricted Share Units and Share Awards (Continued)

(b) Restricted share units ("RSU")

On December 16, 2019, the Company adopted a Restricted Share Unit Plan (the "RSU Plan"), subject to TSX-V and disinterested shareholder approval of the Company's Omnibus LTIP. The Company's Omnibus LTIP was approved at the Company's annual general meeting on June 19, 2020. The maximum aggregate number of shares reserved for issuance under the RSU Plan, together with the Company's Stock Option Plan shall not exceed a combined total of 10% of the Company's issued and outstanding shares. In addition, the RSU Plan sets out certain other restrictions in respect of grants to certain participants under the RSU Plan in accordance with the rules of the TSX-V. The Company granted RSU's before the Plan was approved by the shareholders and TSX-V and these RSUs were valued at the stock price at the end of each reporting period. When the Plan was approved on June 19, 2020, the expense related to these granted RSUs was adjusted to the fair value per share as of June 19, 2020.

	Number of RSUs
Balance, December 31, 2019 and March 31, 2020	2,350,000
Balance, December 31, 2020	4,153,333
Converted into common shares	(800,000)
Balance, March 31, 2021	3,353,333

For the three months ended March 31, 2021, the Company recorded share based compensation expense for these RSU's of \$371,267 (three months ended March 31, 2020 - \$1,357).

(c) Share awards

On December 1, 2020, the Company granted 210,000 share awards to an employee and an officer which are to be settled in cash and vest as follows: 70,000 on each of the first, second and third anniversaries of the date of grant. The fair value of these cash-settled awards is recognized as compensation expense over the period that related services are rendered with a corresponding increase in liabilities. The total amount expensed is recognized over the vesting period, which is the period over which all the specified vesting conditions should be satisfied.

For the three months ended March 31, 2021, the Company recorded share based compensation expense for these share awards of \$15,343.

As at March 31, 2021, there were 210,000 share awards outstanding.

14. Contingent Liabilities

(i) On August 24, 2019, the Ramu Nickel Joint Venture ("RNJV") was involved in an environmental incident that resulted in an investigation by the PNG authorities. The investigation has been completed, however the final investigation report is yet to be released. Ramu Nico Management (MCC) Limited ("RNML"), the Joint Venture Manager, has implemented effective control measures to prevent similar incidents from occurring and compensated local residents of approximately PGK 300,000. However, RNML is unable to estimate the possible further compensation amount until the final investigation report is released.

On February 5, 2020, the Madang Provincial government and 13 landowner plaintiffs sued RNML for alleged breach of various environmental laws and commitment of public and private nuisance and negligence by continuously dumping tailings and waste into the Astrolabe and Basamuk Bays. On March 23, 2020, RNML filed its defence. On September 8, 2020, the plaintiffs had then filed a Notice of Motions intending to stop the normal operation of the Ramu project. Subsequently, RNML filed 51 affidavits to defend and a motion seeking to transfer the case to a commercial court. In October 2020, the State of Papua New Guinea through the Conservation and Environment Protection Authority (CEPA) also filed an application to be a second defendant in this case delivering support to the Ramu project. This application was granted by the court. As of the date of signing these financial statements, the case is still in the pre-trial stage and Management is unable to assess the likely result of this case.

No provisions were recognized in the condensed interim consolidated financial statements in relation to these two matters.

(ii) Accounts payable and accrued liabilities contain amounts which are held on behalf of former shareholders of Highlands Pacific Limited, which have not yet been claimed by shareholders following the purchase and subsequent delisting of Highlands Pacific Limited from the Australian Securities Exchange ("ASX").

15. Subsequent Event

(i) The exploration license number 2579 with respect to Ramu Nickel Joint Venture expired in February 2021. MCC Ramu Nico Limited has applied for renewal of the license in November 2020. The hearing for the renewal of the license was delayed due to the Covid19 situation in PNG and is expected to be conducted by the Mineral Resources Authority in 2021.
