## NICKEL 28 FILES FISCAL Q1 FINANCIAL STATEMENTS

TORONTO, ONTARIO, June 30, 2022 —Nickel 28 Capital Corp. (“**Nickel 28**” or the “**Company**”) (TSXV: **NKL**) (FSE: **3JC0**) has released its results for the quarter ended April 30, 2022.

“During the quarter, the Company received a cash distribution of \$3.5 million from Ramu’s operating surpluses for the second half of 2021. In addition, production at Ramu returned to historic highs, following a short pause in production at the end of 2021 due to Covid.” stated Anthony Milewski, the Company’s Chairman. “Ramu sales have been slower than expected due to Covid restrictions and Ramu is facing higher input and labour costs as has been seen in the broader market, however nickel and cobalt prices remain much higher than this time last year and we are anticipating another strong year of production, sales, and cash flow from Ramu.”

### Quarterly Highlights

The Company’s principal asset, an 8.56% joint-venture interest in the Ramu Nickel-Cobalt (“**Ramu**”) integrated operation in Papua New Guinea, had another outstanding quarter. Highlights from Ramu and the Company during the quarter include:

- Receipt of a cash distribution of \$3.5 million during the quarter from Ramu’s operating surpluses in the second half of 2021.
- Strong quarter end cash balance of US\$6.4 million, providing ample liquidity for the Company.
- Production of 8,756 tonnes of contained nickel and 830 tonnes of contained cobalt in mixed hydroxide (MHP) during the first calendar quarter, placing Ramu as the number one producer of MHP globally.
- Actual cash costs for the first calendar quarter, net of by-product sales, of US\$1.48/lb. of contained nickel.
- Total net and comprehensive loss of \$2.8 million (\$0.03/share) for the quarter, largely as a result of lower sales and higher input and labour costs.

### About Nickel 28
